DETAILED ACTION

Specification

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. **Claim 1-12** are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

claim 1 recites the following:

a) "said data packet being one of a plurality of data packets received in an original packet order" in lines 5-6;

b) "reordering the data packets after the processing into the original packet order" in line 11-12;

c) "preceded the one or more fast data packets in the original packet order" in lines 3-4 from the bottom.

They are not in the specification originally filed.

claim 8 recites the following:

a) "said data packet being one of a plurality of data packets received in an original packet order" in lines 12-14;

b) "preceded the fast data packets in the original packet order" in lines 20-21 from the bottom.

c) "preceded the one or more fast data packets in the original packet order" in lines 31-32.

They are not in the specification originally filed.

claim 12 recites the following:

a) "said data packet being one of a plurality of data packets received in an original packet order" in lines 10-11;

b) "reordering the data packets after the processing into the original packet order" in line 19-20;

c) "preceded the one or more fast data packets in the original packet order" in line 3-4 from the bottom.

They are not in the specification originally filed.

Claims 2-7, 9-11 depend from 1 and 8 respectively, therefore, are rejected for the same reason.

Please note that though [0050] Specification recites "reordering is done before the first distributing unit 17" (last line), it does not disclose reordering is not after the packet processing by the system.

Since key limitations of the independent claims are missing in the Specification, the prosecution cannot continue.

Correction is required.

Response to Amendments/Arguments

4. Applicant's arguments filed on 9/4/2007, with respect to the rejection of claim 12 under 35 U.S.C. 101 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn based on the amended claim 12.

5. Applicant's arguments filed on 9/4/2007 with respect to the rejection(s) of claim(s) 1-12 35 U.S.C. 112, second paragraph have been fully considered and are persuasive with amended claims. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. Applicants amended all claims. However, the amended claims contains new matter that is not disclosed in the Specification originally filed.

6. Applicant does not response to Specification Objection in the previous Office Action. The objection to Specification stands.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory

Art Unit: 2616

period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
